Technical specification
Platinum ERGO Stairlift

The Track
The twin tubular rails are tested individually in the factory; they are made to measure and made in sections, which simplifies the transport and installation on the staircase.

Detail 1
Adjustment of the armrests and the seat.

Detail 2
A level start and arrival with the seat in swivelled position.

The carriage
The seat has a maximum capacity of 264 pounds. It is also available with a maximum capacity of 352 pounds.
